

## Unknown Candidate

### 28 February 2025

#### Qualitative Analysis - Positive

- You have clearly stated your academic background and current pursuits, showcasing your dedication to the field of computational and data science, Shumashreej Vishwas.
- You have effectively highlighted your technical skills, including proficiency in programming languages such as Python, C++, and R, as well as experience with machine learning and data processing libraries like TensorFlow, Keras, and OpenCity.
- You have demonstrated a passion for applying your skills to solve real-world problems, and your projects, such as the CRN gesture recognition system and analytics of swapping behavior patterns, demonstrate your ability to innovate and translate complex datasets into actionable insights.

#### Qualitative Analysis - Areas of Improvement

- You could improve by providing more specific details about your projects, such as the challenges you faced and how you overcame them, to give a clearer picture of your problem-solving skills, Shumashreej Vishwas.
- You could benefit from quantifying your achievements, such as stating the accuracy of your CRN gesture recognition system or the impact of your analytics on swapping behavior patterns, to demonstrate the effectiveness of your work.
- You may want to consider rephrasing statements like 'I am driven by the challenges that invite innovation and require a blend of creativity, technical skill, and strategic thinking' to make them more concise and direct, avoiding vague phrases.
- You could enhance your presentation by providing more context about your goals and how they align with the organization you are applying to, to show that you have done your research and are genuinely interested in the role.
- You should avoid using overly generic phrases, such as 'groundbreaking discoveries and innovative solutions that address the complex global challenges', and instead focus on specific areas you are passionate about and how you can contribute to them.

#### Audio Analysis

Average Volume: -24.51 dBFS (approx 59% of maximum loudness)

Speaking Pace: 150.36 words per minute

### Detailed Evaluation Metrics

No.	Items to look out for	5 point scale
1.	Did the speaker speak with confidence? • Posture • Smile • Eye Contact • Energetic Start	<b>Satisfactory</b> <b>N/A</b> <b>Satisfactory</b> <b>Poor</b>
